Skill level Beginner-friendly	**Finished size** About 4 in / 10 cm	**Construction** Worked in 2 rounds
Yarn Worsted weight (#4)	**Hook** 4.0 mm (G-6)	**Time** About 20–30 min

YOU WILL NEED

Worsted-weight (#4) yarn in one or two holiday colors • 4.0 mm (G-6) crochet hook • Scissors and a yarn needle • Optional: yarn for a hanging loop, blocking mat and pins

GAUGE: Not critical for this ornament. Your tension and yarn choice will affect the finished size.

Pattern note: This is an original CozLoop tutorial. The illustration is decorative; follow the written instructions for stitch placement.

Before You Begin

US crochet terms: ch = chain; sl st = slip stitch; sc = single crochet; hdc = half double crochet; dc = double crochet; st(s) = stitch(es); sp = space; MR = magic ring; FO = fasten off.

Tip: Keep your stitches even, but do not pull the chain spaces too tightly. The chain-2 spaces form the tips of the star.

ROUND 1 — MAKE THE CENTER

1. Make a magic ring. If you prefer, ch 4 and join with a sl st to form a ring.
2. Ch 1 (does not count as a stitch). Work 10 sc into the ring.
3. Pull the ring closed, then join with a sl st to the first sc. **Stitch count: 10 sc.**

ROUND 2 — SHAPE FIVE POINTS

Repeat the following sequence 5 times, working around the 10 stitches from Round 1:

STAR-POINT CLUSTER
Work all into the same stitch:
(sc, hdc, dc, ch 2, dc, hdc, sc)

1. Sl st in the next sc from Round 1.
2. Work one complete star-point cluster into the next sc.
3. Repeat steps 1–2 four more times. You will have 5 star-point clusters and 5 chain-2 tip spaces.
4. Join with a sl st to the first slip stitch of the round. FO and pull the yarn through.

FINISHING

• Use a yarn needle to weave in all ends securely.

• Gently shape the five points with your fingers. If needed, lightly dampen and pin the star flat until completely dry, following the care instructions for your yarn.

• To add a hanging loop, attach yarn at one point, ch 12, then sl st back into the same point. FO and weave in the ends.

TROUBLESHOOTING & IDEAS
